

# COVID-19 Coverage By Cable and Broadcast Networks

Ceren Budak, Ashley Muddiman, Yujin Kim, Caroline C. Murray, Natalie J. Stroud

How did cable and broadcast networks cover COVID-19? We present a dataset and analyses to answer this question.

We use supervised learning methods to identify COVID-19 coverage in cable and broadcast transcripts.

Language analysis reveals a clear separation between cable and broadcast news coverage.

Distinctive phrase analysis suggests that cable news is politicizing COVID-19 coverage.

Clear distinctions observed in the attention paid to the pandemic (e.g., lowest coverage by Fox News).
